General Information

Instructor: Dr. Jaime Flowers, Ph.D, BCBA, NCSP

Title: Meta-Analysis of BST

CEs: 3 Learning CEUs in the area of supervision

Location: Online

This course will review research evaluating behavioral skill training. This course will provide details of 3 studies which used BST, cover the PND method for meta-analysis, and review the results of the meta-analysis. You will gain knowledge of the skills and populations that BST is most successful with. *After completion of this course you will be awarded 3 Learning CEUs in the area of supervision.*

Learning Objectives

1. Learn the about behavior skill training (BST).
2. Identify 3 studies which utilized BST.
3. Learn about the percentage of non-overlapping method for meta-analysis.
4. Learn the results of a meta-analysis on BST.

Course Assignments, activities, and technology

- 4 Videos
- 4 Reading Activities
- 4 Discussion Boards
- 4 Activities
- Final Exam

Evaluation and Assessment

Participants must score 80% or better on all quizzes and exams. Participant also must turn in all assignments and respond to all discussion boards. Participants will have multiple opportunities to complete these activities if the first attempt is not satisfactory.
